VP6D ISLAND REPORT/UPDATE (October 27th) [edited].

- We continue to operate on all bands that are are open.
- Earlier today we took the N1MM log, merged all the FT8 logs, and uploaded to our log server at <VP6D.com> ~81,000 QSOs. We will do a complete log analysis and audit after we leave Ducie.
- 6m EME - last night we made 3 more contacts. We will continue operating 6 m EME on moonrise for another few nights.
- We created an island exit plan with the skipper of the Braveheart. In order to make the once-a-week flight from Mangareva to Tahiti we will begin the tear down process as follows:

Wednesday 31 Oct: Remove 6 m EME antenna and 160 antenna

Thursday 1 Nov: Begin tear down of CW and SSB camps, antennas, etc  
Remove all non essential equipment from the island.

Friday 2 Nov: Remove sleeping tents and move all DX-pedition equipment to the Braveheart

Leave the island approx 15:00 (local)

Depart Ducie 18:00 (local) after stowing all equipment on Braveheart

Above plan dependent on the weather remaining calm.

Team Ducie 2018
